Connect and Extend Your Light Strip.

The Light Strip Extension Cable works with Cync and C by GE Light Strip and Light Strip Extension.

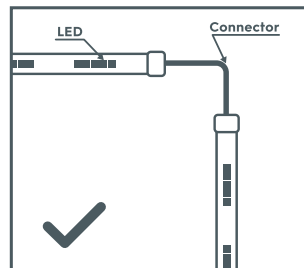

To connect your Light Strip Extension Cable:

⚠ Unplug the Light Strip from the wall prior to attaching the extension.

Remove plastic covers.

Align pins and insert.

The Light Strip Extension Cable allows for tight bends, including 90° bends around TVs and cabinets.

Note: Light strip can be extended up to 32ft.
