

LED+™

A simple addition to everyday light.™

GETTING STARTED GUIDE

See inside for steps

1

Position the switch on the bulb to the 'lamp' position

2

Screw in bulb

3

Turn on the lamp

FOR INITIAL SET UP

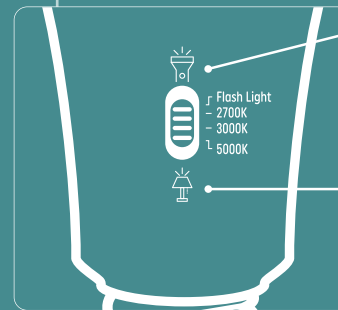

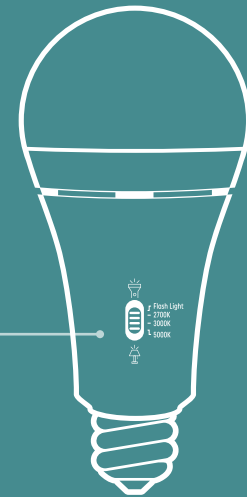

- Keep light on for 10 hours to fully charge battery

IN CASE OF POWER OUTAGE

- If wall switch is ON, bulb will automatically come on
- If wall switch is OFF, either
 1. turn the wall switch to ON
 2. unscrew the bulb and use as a flashlight/lantern by turning the bulb switch to the flashlight position
- Bulb will illuminate for approximately 5 hours without power
